

Completing IAEA e-learning offline

You can now enjoy the IAEA's e-learning offline on your devices, using moodle mobile and desktop apps - please follow the instructions below:

1. DOWNLOAD THE APPLICATION

First, you will need to download the application for your device;

- **Mobile Application**
 - Read the instructions [here](#) or download directly using [App Store](#) or [Google Play](#).
- **Desktop application**
 - Read the instructions [here](#) or download directly [Windows store](#) or [Mac App Store](#).

2. ENTER WEBSITE LINK

Once installed, open the application and you will be prompted to enter the learning management system website address. Please make sure you are using the following address:

elearning.iaea.org/m2

Please note that there is '/m2' at the end.

3. LOG IN

You will be prompted to log in to your NUCLEUS account in a browser once.

4. DOWNLOAD CONTENT

Once you have the application and are logged in, you will be able to see your courses, or to enrol into new courses. Go to the courses of interest and download the sections you want to complete offline.

5. SYNCHRONIZE PROGRESS

Please remember that you will eventually need to go online to synchronize your progress.

NEED HELP?

If you have any questions about the steps above, please contact nsnselearning@iaea.org.
